The Beach Boys - It's About Time

[Verse 1]
```
  G                            F/G
I used to be a famous artist, proud as I can be
C/G                            G
Struggling to express myself, for the whole world to see
  G                               F/G
I used to blow my mind sky high, searching for the lost elation
C/G                                        G
Little did I know the joy I was to find in knowing I am only me
```

[Chorus]
```
    Bb                         Eb/Bb
I’m singing in my heart, I’m singing in my heart
    Fm7/Bb                              Eb/Bb
I’m singing, love to sing, I love to sing it from my heart
```

[Verse 2]
```
          G               F/G
Oh the creation yeah, of which I’m doing my part
        C/G                           G
With an open-hearted laugh of realization in my mind
    G                                F/G
And now I’m but a child, who art erect in humility
C/G                                        G
Serving out a love for everyone I meet, in truth who are really
me
```

[Chorus]
```
    Bb                         Eb/Bb
I’m singing in my heart, I’m singing in my heart
    Fm7/Bb                              Eb/Bb
I’m singing, love to sing, I love to sing it from my heart
```
