Leonard Cohen - Hallelujah

C Am C Am

```
  C                  Am                  C
I heard there was a secret chord that David played and it
Am                     F                  G               C      G
pleased the Lord, but you don't really care for music do you?
        C                    F            G           Am
Well it goes like this: the fourth, the fifth, the minor fall,
        F                G             E7              Am
and the major lift, the baffled king composing hallelujah,
     F            Am           F            C G C   Am   C   Am
hallelujah, hallelujah, hallelujah, hallelujah

          C                             Am                 C
Well your faith was strong, but you needed proof, you saw her
        Am                F               G               C        G
bathing on the roof, her beauty and the moonlight overthrew you.
    C                F       G           Am
She tied you to her kitchen chair, she broke your throne, and
    F                    G                   E7             Am
she cut your hair, and from your lips she drew the hallelujah,
     F            Am           F             C G C   Am   C   Am
hallelujah, hallelujah, hallelujah, hallelujah

C               Am                 C                            Am
Baby I've been here before, I've seen this room, and I've walked
               F             G               C
this floor, I used to live alone before I knew you.
     C                     F      G          Am
I've seen your flag on the marble arch, but love is not a
F                      G               E7           Am
victory march, it's a cold and it's a broken hallelujah,
     F            Am           F            C G C   Am   C   Am
hallelujah, hallelujah, hallelujah, hallelujah
```

```
            C                    Am                    C
Well, there was a time when you let me know, what's really going
Am            F             G               C       G
on below, but now you never show that to me do you?
     C              F        G             Am            F
But remember when I moved in you, and the holy dove was moving
         G               E7            Am          F
too, and every breath we drew was hallelujah, hallelujah,
     Am          F           C G C  Am  C  Am
hallelujah, hallelujah, hallelujah

      C               Am             C             Am
Well, maybe there's a god above, but all I've ever learned from
         F                G           C        G
love was how to shoot somebody who outdrew you.
     C                   F       G           Am
It's not a cry that you hear at night, it's not somebody who's
F                       G               E7          Am
seen the light, it's a cold and it's a broken hallelujah,
     F           Am          F           C G C
hallelujah, hallelujah, hallelujah, hallelujah
```
