[Intro] |:F/D D5 D Dsus D:|

```
F/D                                        D
Old man look at my life, I’m a lot like you were
F/D                                        D
Old man look at my life, I’m a lot like you were
```

[Verse 1]

```
D       F                C                         G
Old man look at my life, twenty four and there’s so much more
D               F             C                   F
Live alone in a paradise that makes me think of two
D          F            C                   G
Love lost, such a cost, give me things that don’t get lost
D                C                  F               G
Like a coin that won’t get tossed, rolling home to you
```

[Instrumental] - D Am7 Em7 G

[Chorus]

```
D                                      Am7      Em7  G
Old man take a look at my life, I’m a lot like you
D                              Am7       Em7    G
I need someone to love me the whole day through
D                                     Am7         Em7  G
Ah, one look in my eyes and you can tell that’s true
```

[Instrumental] - D F C G | D F C F

[Verse 2]

```
D          F                  C              G
Lullabies, look in your eyes, run around the same old town
D                F             C                 F
Doesn’t mean that much to me to mean that much to you
D         F               C            G
I’ve been first and last, look how the time goes past
D            C             F               G
But I’m all alone at last, rolling home to you
```

[Instrumental] - D Am7 Em7 G

[Chorus]
D Am7 Em7 G
Old man take a look at my life, I’m a lot like you

I need someone to love me the whole day through

Ah, one look in my eyes and you can tell that’s true
