Cameron Winter - Try As I May

```
G                        C            G
Try as I may, I'm still fighting for you
      D   Bm             Em
In my own long-suffering way
C                 G                D
You were meant to watch my private ceremonies
Bm  Em          C        G
All in the dark parts of rooms

G                          C                      G
Try as I may to hold your crazy ass against the wall
      D          Bm               Em
In my scared, my scared  shitless way
C                G              D
You came down to see my private ceremonies
Bm  Em     C             G
All on the floor of this room

G                  C           G
Try as I may, I am always kept safe
D            Bm           Em
In my, in my right-minded hell
C                G       D          Bm
You were born to hold my cannonball brain
         C              G
Like the Lord holds the moon

G                     C              G
Try as I may, I never did seduce the wall
D                        Bm              Em
With my spinning and my swinging and my spineless ways

[Instrumental] - C G D Bm | C G Bm C
```

```
G                        C            G
Try as I may, I'm still fighting for you
D          Bm                        Em
In my sad, sad little rock-throwing way
C                 G             D
You were meant to watch over my ceremonies
Bm  Em       C          G
All from the dark in my shoe

G                  C                 G
Try as I may to be heard through the wall
D                  Bm          Em
To be seen getting loud on the phone
C                 G                   D        Bm
You were born to break my big hairy football arms
     Em    C                G
Like clean windows kill the birds

G                  C               G
Try as I may, I am bitching to the wall
   D             Bm                   Em
Of my long-armed and knuckle-scraping ways
C                       G           D                      Bm
I hadn't sailed thirty feet when I drowned in expensive clothes
Em      C              G
For the oysters all to see

G                           C          G
Try as I may, to love what fits in my hand
  D        Bm       Em
I don't,          I don't

C G D Bm Em
C G D G
