[Intro] - D Gm

```
D                              Gmaj7/B                        Em
A heart that’s full up like a landfill, a job that slowly kills
you
A       Asus       D     Gm
Bruises that won’t heal

D                             Gmaj7/B
You look so tired, unhappy, bring down the government
Em          A          Asus      D    Gm
They don’t, they don’t speak for us

D                           Gmaj7/B
I’ll take a quiet life, a handshake of carbon monoxide
Em            A     Asus    Em            A     Asus
No alarms and no surprises, no alarms and no surprises
Em            A     Asus    D     Gm  D     Gm
No alarms and no surprises, silent,   silent

D                          Gmaj7/B
This is my final fit, my final bellyache with
Em            A     Asus    Em            A     Asus
No alarms and no surprises, no alarms and so surprises
Em            A     Asus    D     Gm
No alarms and no surprises, please
```
